

Bill: H. R. 9510 (illustrative; the Clerk assigns the number at introduction), 119th Congress, 2d Session. **Refer to:** House Energy and Commerce (Health)

PAYGO and Cost Estimate Note

Prepared by Kevin Kawchak , CEO ChemicalQDevice | kevink@chemicalqdevice.com | 10.5281/zenodo.xxxxxxx

Independent research draft. Not an enacted law and not legal advice; not endorsed by the FDA, HHS, or any Member of Congress.

Subject

Statutory PAYGO statement

The bill creates no new spending program and no new direct spending or revenue. It directs the Secretary to issue final implementing regulations within 365 days under section 515D(h); the measure is therefore expected to be PAYGO neutral over the budget window.

Basis of estimate

The only Federal activity directed is rulemaking, an administrative cost absorbed within existing FDA appropriations. Sponsor compliance costs fall on private investigations and are offset by avoided manual-review burden.

Figure placeholder (Images/cost-direction.png). The float, caption, and \label mirror the VVUQ-02 figures; replace the box with \includegraphics.

Figure 1: Figure 1. Placeholder schematic of the assurance-cost direction (automated gate vs manual review).

Five-year budget effect

Fiscal year	Outlays	Revenues	Net effect
FY1-FY5	\$0	\$0	\$0 (PAYGO neutral)

Table 1: Table 1. Estimated budget effect, by fiscal year (modeled on VVUQ-05 Table 1).

Earmark declaration

Pursuant to clause 9 of Rule XXI, this measure contains no congressional earmark, limited tax benefit, or limited tariff benefit as defined in that clause.
