Sponsor and Original Cosponsor Packet

Prepared by Kevin Kawchak , CEO ChemicalQDevice | kevink@chemicalqdevice.com | 10.5281/zenodo.xxxxxxxx

No Member has agreed to sponsor this measure; this packet is a sign-on instrument only.

Independent research draft. Not an enacted law and not legal advice; not endorsed by the FDA, HHS, or any Member of Congress.

Subject

Purpose of this packet

This packet is the recruitment and sign-on instrument for the draft bill. It does not introduce anything; only a sitting Member may introduce a House bill. The objective is to place the finished text with one Member who will introduce it and to gather original cosponsors.

The sponsor: role and what is needed

A House bill has exactly one sponsor, whose name leads the bill; every other supporter is a cosponsor. Two items are required before introduction: the sponsor's signature on the measure and a signed Constitutional Authority Statement under Rule XII.

Introduction checklist

- ☐ One authoritative introduction version is frozen and version-controlled.
- ☐ A named attorney and qualified experts have reviewed and own the final text.
- ☐ Currency check completed: every cross-reference and conforming amendment still lands.
- ☐ Final text routed through the House Office of the Legislative Counsel for form.

- ☐ Sponsor committed and signature obtained; Constitutional Authority Statement signed.
- ☐ Original cosponsor list collected on the exact introduction version, bipartisan balance pursued.

Sponsor and original cosponsor sign-on

The first signer is the sponsor (one only); subsequent signers committing before introduction are original cosponsors.
