

Bill: H. R. 9510 (illustrative; the Clerk assigns the number at introduction), 119th Congress, 2d Session. **Refer to:** House Energy and Commerce (Health)

Section-by-Section Analysis

Prepared by Kevin Kawchak , CEO ChemicalQDevice | kevink@chemicalqdevice.com | 10.5281/zenodo.xxxxxxxx

Independent research draft. Not an enacted law and not legal advice; not endorsed by the FDA, HHS, or any Member of Congress.

Index terms

How to read this analysis

Each entry names a part of the bill and states, in one short paragraph, what it does and why. The analysis is explanatory matter; it accompanies the measure and never replaces its operative text.

Section 2 – Findings

Section 2 records the findings of fact that supply the evidentiary and legal predicate for the rule, tying the need and the feasibility of verify-before-generate to in-force authorities.

Figure placeholder (Images/bill-structure.png). The float, caption, and \label mirror the VVUQ-02 figures; replace the box with \includegraphics.

Figure 1: Figure 1. Placeholder schematic of the bill's structure (sections 1 through 4 and appendices).

Section 3 – New section 515D and conforming amendments

Section 3 is the operative provision: subsection (a) inserts section 515D after section 515C, subsection (b) makes the ten conforming amendments, and subsections (c) through (e) carry the clerical amendment, the rule of construction, and the effective dates.

Provision	FD&C §	21 U.S.C.	Effect
New operative section	§ 515D	§ 360e-5	verify-before-generate gate
Prohibited acts	§ 301	§ 331	bar generation or execution in violation
Premarket approval	§ 515	§ 360e	require the cleared record
State-law savings	§ 521	§ 360k	preserve human-in-the-loop laws

Table 1: Table 1. Conforming amendments at a glance (modeled on VVUQ-05 Table 1).

Section 4 – Comparative print

Section 4 presents the changes to existing law in Ramseyer form, marking matter to be struck and matter to be inserted for each affected Title 21 device section.
