

Ramseyer Comparative Print

Prepared by Kevin Kawchak , CEO ChemicalQDevice | kevink@chemicalqdevice.com | 10.5281/zenodo.xxxxxxxx

Matter to be deleted is shown [strike: ...]; matter to be inserted is shown [insert: ...].

Independent research draft. Not an enacted law and not legal advice; not endorsed by the FDA, HHS, or any Member of Congress.

Subject

Reader's note on conventions

This print shows the changes the bill makes to existing law. Existing text is plain; matter proposed to be struck is shown with [strike: a strike marker]; matter proposed to be inserted is shown with [insert: *an insert marker*]. No strikethrough or underline is used.

Changes to existing law

Two representative sections are shown; the full print covers every affected Title 21 device section.

Section 301 (21 U.S.C. § 331) – Prohibited acts

Existing law. The following acts and the causing thereof are prohibited:

As amended. The following acts and the causing thereof are prohibited: [insert: *the generation or execution of robot-patient interaction code in violation of section 515D*];

Section 515 (21 U.S.C. § 360e) – Premarket approval

Existing law. An application for premarket approval shall contain ...

As amended. An application for premarket approval shall contain ... [insert: *and the cleared verification record required by section 515D*].

Figure placeholder (Images/affected-sections.png). The float, caption, and \label mirror the VVUQ-02 figures; replace the box with \includegraphics.

Figure 1: Figure 1. Placeholder map of the affected Title 21 device sections.

Affected sections at a glance

Section	21 U.S.C.	Marked change
Prohibited acts § 301	§ 331	insert new prohibited act
Adulteration § 501	§ 351	insert deeming clause
Premarket approval § 515	§ 360e	insert record requirement

Table 1: Table 1. Affected sections and the marked change (modeled on VVUQ-05 Table 1).
